

**European Union comments on**  
**CL 2016/19-NFSDU**  
**Request for Comments at Step 6 on the Draft NRV-R for Vitamin E**

*European Union Competence*  
*European Union Vote*

The European Union (EU) maintains its position expressed in 2015, that the EU would opt for the NRV that has been most recently suggested by the RASBs and would therefore support a value of 12 mg for Vitamin E.
